

## Terms and Conditions for Displaying F1 Show Cars

### ProKoVent GmbH

Bünishoferstrasse 241, CH-8706 Meilen, Switzerland

### On behalf of Sauber Motorsport AG

These Terms and Conditions (hereinafter "T&Cs") govern the display of Formula One (F1) show cars organized by ProKoVent GmbH (hereinafter the "Agency") on behalf of Sauber Motorsport AG (hereinafter the "Team") for Team Partners (hereinafter the "Partner").

#### 1. Purpose

Show car appearances are an effective means of communicating a partnership with the Sauber F1 Team. These T&Cs are designed to ensure that the show car is displayed to its best advantage and in accordance with the Team's standards.

#### 2. General Points

**2.1. Set-Up Space:** The exhibition of show cars requires a dry, secure, and level set-up space. The Partner is responsible for providing a suitable location that meets these requirements.

**2.2. Adjustments:** No optical, technical, or other adjustments may be made to the vehicle. Its visual appearance must be flawless; in particular, the clean state of the car is to be ensured. If the car reveals any kind of damage, it may not be exhibited.

**2.3. Dimensions and Weight:** The show car has dimensions of approximately 5,300 mm length and 1,800 mm width. A show car weighs approximately 350 kg (or as specified in the Showcar Exhibition Fact Sheet). The size of the car is approximately 210 cm wide and 550 cm long (or as specified in the Showcar Request Form).

#### 3. Delivery

**3.1. Ground Clearance:** Formula One models have extremely low ground clearance. The entire route from the delivery truck to the exhibition space, as well as the type of presentation planned, must be discussed in advance and in detail with the Agency and its logistics partners.

**3.2. Access:** Gates and doors should have a minimum width of 2.20 meters (or 2.00 meters as specified in or 1.90 meters as specified in &).

#### 4. Handling

**4.1. Care:** Show cars must be treated with the utmost care. Aerodynamic components and rear-view mirrors, in particular, are easily damaged or broken off even at the slightest pressure.

**4.2. Personnel:** Any moving or cleaning of the car should be carried out exclusively by the staff of the Agency's logistics partners or the Team's staff. To save personnel costs, one additional person to help on-site may need to be made available by the Partner. Any additional people need to follow strictly the instructions of our staff.

**4.3. Handling is exclusive to Sauber Motorsport Staff:** The handling of the show car has to be exclusively done by The Sauber Motorsport staff.

## **5. Positioning of the Tyres**

Tyres should always be aligned so that the logo of tyre partner Pirelli appears uniformly centered at the top of all four wheels.

## **6. Safety**

**6.1. Secured Area:** To avoid any damage being done to the show cars, they should be displayed in a separate and secured area.

**6.2. Security Staff:** For exhibitions that are open to the public, security staff must be hired at the Partner's expense.

**6.3. Touching:** Touching the vehicles—in particular sitting on or getting inside the car (children included)—is not permitted. Auxiliary staff (hostesses, cleaning staff, security, etc.) must be briefed accordingly.

**6.4. Theft or Damage:** In the event of theft or loss, the police must be notified immediately. If the car is damaged, the relevant Account Manager and/or logistics partner must be informed straightaway.

## **7. Insurance**

**7.1. Partner's Insurance:** The Team Partner has to make sure that each show car is insured during the event in the amount of CHF 300,000.00 (or as otherwise specified in the specific event agreement). The insurance policy needs to be submitted to ProKoVent the latest 1 week prior to the event. Any damages will be charged to the partner. The Partner must ensure the insurance during the event.

**7.2. Transportation Insurance:** During the transportation and handling through the Agency's logistics partner, the show car is already insured. The show car is insured only during the transportation (delivery and pick up, Incl. in Transportation fee).

## **8. Surroundings**

**8.1. Presentation Area:** The show car is to be presented in a separate, covered area.

**8.2. Venue Quality:** The event venue should reflect the Team's premium aspiration and provide an appropriate display setting. Preferably this should be a generous, homogeneous environment with a consistent color scheme. Inappropriate venues, such as garish and cramped spaces, are to be avoided.

**8.3. Materials and Colors:** Likewise, the use of inferior materials and loud or conspicuous colors should be avoided.

8.4. **Branding:** There must be no third-party branding in the immediate surroundings of the vehicle; the display of the car must not give observers the impression that the Sauber F1 Team has any connection with companies other than the Team Partners.

## 9. Competitive Exclusion

In the case of co-marketing arrangements with other companies that are in competition with Team Partners, the show car may not be used.

## 10. Material

If required, a stand-up display with information about the car (fact sheet) may be requested at any time. It is recommended that the spec sheet be placed to the side of the car to allow an unobstructed view for photographers. An Aluminium display incl. facts about the show car may be provided.

## 11. Booking and Request

11.1. **Request Form:** Please fill out the show car request form and share it with your partnership manager two weeks prior to the event.

11.2. **Agency Management:** The Agency (ProKoVent GmbH) will take care of your request on behalf of Sauber Motorsport. The booking process, including quotation and invoice, will be managed directly with the Agency. ProKoVent GmbH is managing all Showcar Events on behalf of Sauber Motorsport AG. They have the permission to be in direct contact to the team partner and ProKoVent GmbH.

## 12. Costs

12.1. **Hire of Showcar:** The hire of the showcar is a contractual benefit and free of charge.

12.2. **Additional Costs:** The transport costs, handling fees, and expenses, as well as any damages caused during the event, are not included and will be charged extra.

## 13. Additional Information

13.1. **Delivery and Placement:** The show car will be delivered to the requested location and placed professionally by an experienced handling person.

13.2. **Insurance Policy:** It is mandatory to cover the insurance of the show car for the duration of the event. The insurance value is CHF 300,000.00, and the insurance policy needs to be submitted to ProKoVent the latest 1 week prior to the event. Any damages will be charged to the Partner.

## 14. Agency Role

The signatories (the Partner) understand that Sauber Motorsport AG merely acts as an intermediate agent. The Agency provides on behalf of the team quotation and invoice to the partner. Swiss law applies.

## **15. Acceptance of Terms**

With my signature, I accept the terms and conditions and confirm that I have read the factsheet Showcar Exhibition.

## **16. Contact Details**

Contact details ProKoVent GmbH: Name: Diego Schweizer, Mobile: +41 76 369 3070, Email: [diego@prokovent.ch](mailto:diego@prokovent.ch)

## **17. Governing Law**

Swiss law applies to these T&Cs.
